

Welcome to room 25!

Dear families,

My name is Miss. Gully and I will be your child's teacher for 2019. I am extremely excited to get to know each of my wonderful students and look forward to a year filled with many meaningful and challenging experiences. I will strive to create a positive and encouraging learning environment with plenty of room for each child's creativity to be explored. I also feel strongly about having the child, teacher and families work closely together throughout the school year and I look forward to sharing your child's learning successes with you!

A Term 1 overview of our learning areas will be provided in Week 3 and some more information about the new 'Seesaw' learning portfolio app will be provided shortly. This app will be used throughout the school this year and enables families to view and connect with their child's learning, access notices and communicate with teachers from your smartphone or device (This will become my main method for communication).

I ask that you fill in and return to me the student information questionnaire attached and please don't hesitate to see me before or after school if you have any questions or concerns.

A few reminders:

- Homework will be sent home each night beginning in Week 3. I encourage you to read with your child each night and ask that reading logs are signed weekly.
- Please ensure that your child has a healthy snack each day for morning brainfood, a hat for terms 1 & 4, a drink bottle and is wearing the correct uniform items and colours.
- Late arrival and early pick up slips must be collected through the front office before entering the classroom.
- Student free day 6th March and Public holiday 11th March.

A little bit about me

Hi I'm Rachael ☺

I am 25 years old, am newly engaged and a proud 'pet mum' to my gorgeous Ragdoll kitten named Arlo.

I am a new graduate teacher and this will be my first year full time teaching. I am very excited to be a part of the Ingle Farm family and can't wait to bring my passion for imagination, learning and creativity into the classroom!
