MESSAGE FROM THE PRINCIPAL

Dear Families,

Term 3 has begun and we are off to a great start. I hope your school holiday break was relaxing and that you spent some quality time with your children despite the chilly weather.

Students have settled in quickly to their classroom routines and are looking forward to a term full of learning and experiences. This term we have a number of excursions, clubs, celebrations and events happening! Please check our website calendar and SeeSaw for more information.

This year we have introduced a number of electronic social media and learning systems in order to increase our engagement with families and the community and we are proud to say that these programs have been successful beyond what we expected. In particular, SeeSaw has been our most successful family engagement platform.

SeeSaw allows teachers to digitally post student work. This can be accessed by family members (of that student) on the SeeSaw mobile phone App. Family members can directly comment and like each post and engage with their child through SeeSaw. SeeSaw is also a useful communication tool allowing families, students and teachers to communicate by messaging each other through the SeeSaw App. It's important to remember however, the tool is designed to share and celebrate learning. Any urgent communication messages for teachers still need to be face to face or through the front office.

Families are loving SeeSaw and taking an active part in their child's learning. Since the start of the year we have posted over 7200 pieces of student work, there have been over 1100 comments, 8200 likes and 1800 family member visits. We have 330 family members connected to SeeSaw which is incredible. The sense of community and connection SeeSaw has allowed us to achieve is amazing and students are enjoying sharing their learning with families in a safe digital space.

If you haven't connected to your child's SeeSaw profile yet please talk with your class teacher and they will help you get connected. SeeSaw is a free mobile phone app and is very easy to use.

Let's keep the positive energy going.

Warm regards

Vanessa Mortimer

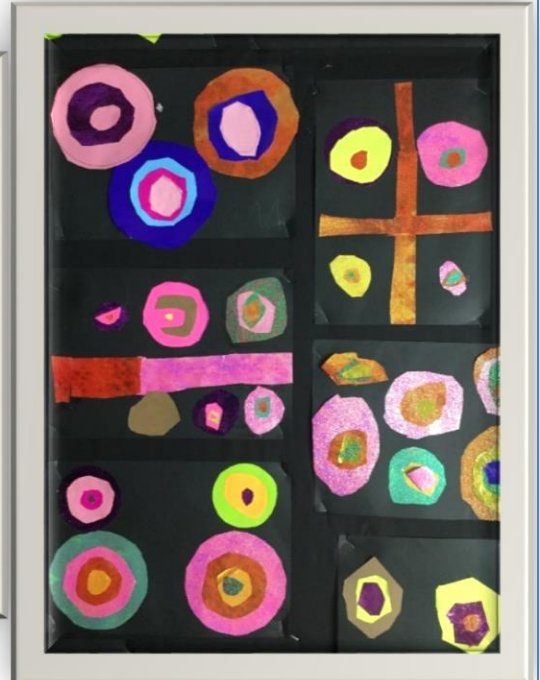

Respect

Honesty

Persistence

Room 10 Art Study

In Room 10 we have been looking at artists and their artwork. The first artist we looked at was a Russian artist Kandinsky. He liked to use colour to express feelings.

The second artist was a French artist Matisse. He also liked to use colours and shapes and made pictures that made him feel happy. His art work was called cut outs.

Our class have planted some sunflowers in the garden beds and when they flower, we will try to paint them like Vincent Van Gogh.

Sally Heinrich visit

We were very fortunate yesterday and today to have South Australian author and illustrator Sally Heinrich visit our school in celebration of Book Week. Sally talked about her journey to becoming an author and illustrator, and her love of books with enthusiasm. She read "One Step at a Time", explained how the book came about, and demonstrated to the students the process of taking a book from idea to finished product. The students enjoyed guessing and learning about how she illustrated the book, and were surprised to learn she used Lino prints. Sally also showed us her original artwork for some of her other books, such as "Papa Sky" and "Most Beautiful Lantern". The students were inspired by her talk as illustrated by their comments, and hopefully were encouraged to read more and perhaps to become Authors/Illustrators.

"I liked her drawings and my favourite was the elephant" Nilam

"I liked the way she persisted and kept on trying with her books" Aisa
