26th of August

**Village Fair**

3rd of September

**Book Week Dress Up**

27th of August

**Student Free Day**

10th of September

## MESSAGE FROM THE PRINCIPAL

Dear Families

Our Book Week celebrations are well underway. Students have been working with different class teachers to share new stories, our Library has been decorated with this year's theme, 'Old Worlds, New Worlds, Other Worlds'. Our students are hunting the yard for the hidden Where's Wally characters with staff faces and I have become a sphynx in the Library with an amazing collage of staff at places across the world. The parades on Friday will certainly be a highlight. We are sad we can't yet include families due to COVID restrictions. I'd like to acknowledge all the staff and student leaders who are coordinating a great week of learning and fun.

Families will soon receive information about end of term interviews. These will be booked online. Class teachers can assist any families who can't access the online booking website. Class teachers and specialist teachers will be available to meet with you. Masks will be required but face to face meetings will go ahead according to current advice.

Last week, we celebrated our Ingle Farm Support Staff. We are very fortunate to have many dedicated support staff who work across all parts of our school. We genuinely achieve so much more for our learners with the collaboration and team work between teachers and support staff.

As Winter draws to a close I'd like to appeal to all families to do a school uniform check. I really value the effort most families take to work with students to wear school uniform correctly. This is very important to create school pride and identity. We talk to students about uniform being how we show our school value of Respect. Uniform options are available through the front office and can be sourced through local retail outlets. A reminder that our colours are navy blue and red not including jeans, caps or excessive jewellery. Your support to meet our uniform code is appreciated.

Friday 10th September is our scheduled Student Free Day for the Term 3. OSHC will be open. Please contact Karen for bookings. Finally, a big thank you for your commitment to our family opinion survey. Family feedback is highly valued and supports our planning at all levels.

Warm Regards

Vanessa Mortimer  
Principal

## ROOM 1 NEWS

It was an unexpected start to the term when South Australia went into lock down just two days in. Fortunately we were lucky enough to continue learning online. Students did a wonderful job at adapting to this change so quickly. We are so appreciative of all families who supported their children with this.

This term, in Room 1, the students are learning about 'Narrative' writing. Our focus is on 'Fairy Tales'. The first text we explored was 'Goldilocks and the Three Bears'. To further engage the students with the story, we made pop-up hand puppets and performed the story as a Narrative to the class. Well done Room 1!

## ROOM 26 NEWS

In Room 26, students have been learning about fractions during Mathematics. They applied their knowledge of equivalent fractions by drawing a portrait of themselves as a Minecraft character. The class used grid paper to draw a 'selfie' where each square required its own solid colour. This led them to calculate the total number of coloured boxes and turn it into a simplified equivalent fraction. Students explored the relationship between art and mathematics whilst adding their own personal identity into the task. The portraits are a spectacular display for our class' pinboards, showcasing Room 26's artistic talent and mathematical application.

## SCIENCE NEWS

Early Years children have been exploring milk. They have investigated ways in which milk can react with different ingredients. We have been discovering how to create our own butter out of cream. Stay tuned in the coming weeks when we try to make milkshakes and even ice cream from milk!!

Our Primary years have been investigating how to pickle different foods. We have had the opportunity to pickle green beans, capsicum, lemon, cucumber, red cabbage and green cabbage. We are currently conducting a test to see if pickling vegetables will last longer than fresh vegetables cut up in a bag. Stay tuned for the results

During Science this term, Upper Primary students have been challenging themselves to become critical thinkers. We are exploring what affects the Australian egg industry has on our country. We have been gathering information on the different egg farming industries in Australia and students are researching how sustainable this industry is.

# NETBALL CLINIC

*Join us for a fun and interactive session of skills and drills*

**DATE:** Sunday 5 September 2021

**VENUE:** Netball SA Stadium, Mile End

**TIME:** 9.00am - 10.30am

**AGE:** 7 - 13 years old

**COST:** Free
